

I oppose SB184 on two grounds: the CT Constitution requires "sickness" as the threshold for receiving an absentee ballot. "Sickness" has always been interpreted to mean a physical ailment that prohibited in-person voting. Also, I oppose expanding the definition of "sickness" in order to mass mail absentee ballots to voter rolls that include hundreds of ineligible voters and which are then subject to fraudulent submission. I urge you to oppose SB184 and maintain voting integrity in the state.

Doing otherwise is an abuse of power and a violation of our democracy.
